

Efthimis Drolapas.

Full Stack Software Engineer

ABOUT ME

I'm Efthimis, a 19 year old FS Software Engineer based in Athens, Greece. I am actively working on projects like Arkana, a web browser and other projects to grow my skills.

SKILLS & EXPERIENCE

UI/UX Engineering - 3+ yr.

Interaction design, usability testing, and more.

Frontend Web Development - 4+ yr.

Responsive design, performance optimization, etc.

HTML, CSS & JS - 4+ yr.

Backend Web Development - 2+ yr.

Including servers (Express), API design and databases.

Node.js - 2+ yr.

Express, Axios and Dotenv (with multiple environments).

Claude/Claude Code - 3 mon.

Used as a copilot, with custom Claude skills I have designed.

PROJECTS

Arkana (under development, available in beta)

A fast, private and future rich web browser for Windows built from scratch.

Anthelion (under development, not available)

An email client started off as a solo school project, now turning it into a real app.

EDUCATION

IEK Delta 360

Stadiou 26, Athina

Self-taught

Since early 2020
